

PROJECT 2023

LS Swim School Landing Page

WEB DEVELOPMENT

Developed a responsive landing page for Life Skills Swim School using Bootstrap for the interface design. The project included a form for capturing visitor enquiries, which were stored in a MySQL database via XAMPP for future reference, demonstrating effective database integration in web development.

Home Page

ESSENTIAL SKILL FOR YOU FOR THE REST OF YOUR LIFE

Come join our swimming community, lets have fun, make new friends and learnt this life skill together.
