

FINAL YEAR PROJECT 2024

CookSmart Mobile Application

MOBILE DEVELOPMENT

Developed CookSmart mobile application in Android Studio using Java and Firebase for database management.

CookSmart is a one-stop solution for users to browse healthy recipes and plan meals.

This is a mobile app sign-in screen. It features a light orange background. At the top, there's a status bar with the time 1:40 and various icons. Below the status bar, the title 'Sign In' is displayed in a large, bold, orange font. Underneath the title, there's a white rounded rectangle containing two input fields: 'Email' with a person icon and 'Password' with a lock icon. Below these fields is an orange button with the text 'SIGN IN' in white. At the bottom of the white rectangle, there's a link that says 'Don't have an account? Sign Up'.

This is a mobile app sign-up screen. It features a light orange background. At the top, there's a status bar with the time 1:42 and various icons. Below the status bar, the title 'Sign Up' is displayed in a large, bold, orange font. Underneath the title, there's a white rounded rectangle containing six input fields: 'Full Name' with a person icon, 'Email' with an envelope icon, 'Diet Type' with a fork and knife icon and an information icon, 'Target Calories' with a fork and knife icon, 'Password' with a lock icon, and 'Confirm Password' with a lock icon. Below these fields is an orange button with the text 'SIGN UP' in white.
